NOTES.

Messrs. Ely, Smith, Caine, and Drake are assigned to headquarters at Washington for two months upon special work.

Upon the completion of the college year at Cornell University, Mr. J. A. Bonsteel will be assigned to special work at headquarters in Washington.

Mr. Jensen will be assigned to special work at headquarters in Washington, about June 1, upon the expiration of his furlough.

Mr. Wheeler has tendered his resignation, which has been accepted to take effect on April 1.

On March 23, 1905, Mr. H. W. Marean was transferred from the Soil Survey to the Reclamation Service of the U. S. Geological Survey.

Mr. Coffey will remain at headquarters in Washington.

All blanks in weekly report cards must be filled out and the cards sent in each week. When on leave of absence the address only need be given.

A description of all soil types found in each area should be sent in upon form 47. Only one preliminary sample of a type should be sent, and the red label should be used for these samples only. The preliminary samples will be included in the report with the regular samples.

Attention is again called to the fact that all note books pertaining to the work of the Soil Survey should be forwarded to the office upon the completion of the area.

Upon the completion of an area one complete copy of the map should be furnished and marked "Correct." This may be either the field or the office copy, and must be upon one sheet in order that the entire area may be shown, and that the sections, etc., may join up.

All requests for publications of the Department and requests for analyses or examination of soil samples should be addressed to the Chief of the Bureau, and not to the Secretary of Agriculture.
